

Product Data Sheet

Tech-Grip Smooth Tacky Surface-APS

Top Cover Material: **Nitrile Rubber/PVC**
Top Cover Profile: **Smooth Tacky Surface**
Underside Material: **Cotton**

Thickness: **1.4mm**
Max Operating Temp. **100°C**

Material Properties

- Extremely high coefficient of friction. Excellent resistance to abrasion. Very good resistance to oils, greases and solvents.
- Available Widths: 50mm, 63mm, 75mm, 100mm, 125mm, 150mm
- Available Widths with Adhesive Backing: 50mm, 63mm, 75mm, 100mm
- Available Lengths: 30M, 60M

Additional Information

This material should be stored in a dry environment, at temperatures of between 5°C - 25°C
